Steinberg is the world leader of Digital Audio Workstation (DAW)

To use the Elicenser you need the eLicenser plugin for Cubase 7 (update 1.44.0 at this moment) . I would really like to use the eLicenser but I can not activate it - it says: "There is no serial number". Is there any software alternative to the Licenser? . ploughchipsi 1 [?]. 'll run it in wine I downloaded wine using apt-get and is set in /usr/bin . Jun 26, 2015 Thanks to the person who responds, I now have a copy of the e-licenser installed on my computer, and am able to use the licencer button with my macbookpro5,2. Before going forward to use the licencer though I should say that it won't work until you have installed wine which is in the software center. My licencer for "Kontrol X1", currently in use, is listed as "Chips Pack". I tried my error on an ipad4, and it installed the e-licenser software without any problem. Also the licencer button was functional on the ipad4. This may have to do with the mac and the ipad being slightly different. Usb Elicenser Emulator Cubase 7 I just moved over to CS7 from 7.0.6, installed the iLok driver, but I have no elicenser button. If I go to the SETTINGS>ACTIVITY>interface>licenser, the only option I have is VST-Licenser-Elicenser-Lib-eLicenser, there is no option to select/open/use the elicenser to control my DAW. Does anyone have any insight into this? Thank you for your help! Using the usb elicenser with ubuntu 15.04 with the Version 4.18.0.3 of wine (1.4.2) in ubuntu 15.04 . Apr 24, 2016 Hi, I am about to buy a new Mac, and I would like to use the eLicenser. It works

fine, except I cant figure out how to install it. I have followed the instructions on the site. It says "For Windows users: Just double-click on the eLicenser.pkg, and the software will be installed. Please note that the USB eLicenser requires that you have installed 2d92ce491b
